

Oberon Pi Draw Quick Reference

Mouse commands

Left Click	set draw cursor
Shift Left Click	set additional cursor
Left Drag	draw quick line
Shift Left Drag	scroll graphics window
Middle Drag	move element
Shift Middle Drag	copy element
Shift Middle Click	copy selected text to caption
Right Click	select element
Right Drag	select multiple elements
Shift Right Click	add element to selection

These commands are similar to the standard Oberon Pi mouse commands, but have been redefined to perform the most common draw operations.

Keyboard commands

Ctrl-I	move element up by one pixel
Ctrl-J	move element left by one pixel
Ctrl-K	move element down by one pixel
Ctrl-L	move element right by one pixel
